Education

Savitribai Phule Pune University, Pune

Sep. 2020 – May 2024

Bachelor of Engineering in Information Technology

CGPA 8.44

Relevant Coursework

- Data Structures
- Software Methodology
- Database Management
- Git

Experience

EazyByts Infotech

June - July 2024

Java Full Stack Developer Intern

- Collaborated on multiple full-stack development projects, focusing on both backend and frontend using Java, Spring, and Thymeleaf.
- Gained hands-on experience with Java technologies, database management, and API integration, ensuring efficient and scalable web application development.

Projects

EMS System

- Developed a role-based web application for managing employee data with separate admin and employee dashboards. Enabled CRUD operations, data validation, and secure access to sensitive employee information.

AI-Powered Interview

- The AI-Powered Interview and ATS System is an innovative platform designed to automate and enhance recruitment processes through advanced AI models. Developed a holistic recruitment platform with integrated HR interview, Technical interview, and ATS modules.
- HR Model: Real-time emotion detection and voice transcription with feedback analysis.
- Technical Model: Domain-specific technical questioning and semantic answer analysis using NLP techniques.
- ATS Module: Automated resume parsing, candidate scoring, and dashboard for seamless applicant tracking. Handled live communication via sockets, allowing dynamic feedback and question retrieval for interviews

CRM System

- Developed a comprehensive CRM system using Java, Spring Boot, Thymeleaf, and MySQL to manage contacts, sales, tasks, support tickets, and user profiles. Implemented user authentication, dashboards, and detailed management features for effective customer relationship management.

Technical Skills

Programming & Development : Java Full Stack, HTML, CSS, JavaScript, Python, SQL, object- oriented programming, data structures and algorithms.

Developer Tools: Git, VS Code, Figma, Adobe XD, Spunk Tool

Soft Skills: Decision Making, Adaptive Thinking, Problem Solving, Analytical Thinking, Team Collaboration.

Academic and Extracurricular Achievements

Extracurricular Achievements

- Represented as **Group Leader** for academic projects, managing team collaboration and overall project delivery.
- Actively participated in **college competitions** and **club management**, contributing to event organization and execution.

Certification

Google Cyber Security Specialization

Aug 2023
